Strong in React, Next.js, React Native, Expo, TypeScript, REST APIs, authentication, databases, and production deployment. 15+ applications shipped, 10+ international clients, and 4.9+ Upwork rating with 100% on-time delivery.

Education

JSPM University Aug 2024 – Aug 2026

B.Tech, Computer Science Engineering *Pune, Maharashtra*

- Completed 2 years of a 4-year B.Tech program.
- Published 5+ technical articles on React Native and modern development practices.
- Maintained 20+ public GitHub repositories with documented code.

Experience

Full-Stack Developer Jun 2022 – Present

Independent Freelance Development *Pune, Maharashtra*

- Shipped 15+ production web and mobile applications for 10+ international clients and small businesses with 100% on-time delivery.
- Built responsive React and Next.js applications with complex state management, API integrations, server-side rendering, database connectivity, and performance-focused development.
- Developed cross-platform React Native applications with Expo for mobile use cases, including AI-powered chat and media-focused applications.
- Integrated 8+ third-party APIs including TMDB, YouTube Music, Spotify, and Groq with authentication and error handling.
- Deployed production applications using Vercel, Firebase Hosting, and Expo; maintained client projects and iterated based on requirements.

Customer Sales Executive Feb 2026 – Aug 2026

Taurus BPO *Pune, Maharashtra*

- Contacted customers who submitted loan enquiries through the Bajaj Finserv website and collected required customer and business information.
- Collected bank statements and reviewed submitted information for preliminary loan assessment before forwarding cases to the relevant processing team.
- Maintained daily calling targets and followed structured customer outreach processes.

Omni Sport Advisor — Intern May 2025 – Aug 2025

Decathlon *Pune, Maharashtra*

- Assisted customers in selecting products based on their needs and preferences.
- Organized and replenished merchandise and supported stock management on the sales floor.
- Supported day-to-day store operations and other tasks required to maintain a smooth customer experience.

Projects

InnerBeat | React, Vite, Tailwind CSS, YouTube Music API, Vercel 2024

- Production music streaming platform with search, queue management, API integration, and responsive UI.

Dan | React Native, Expo, Groq API, Context API 2026

- Cross-platform AI chat application with AI-generated responses, API integration, and centralized application state management.

Movie Streaming Platform | React, Next.js, TMDB API, SSR, 3rd party streaming providers API 2026

- Full-stack streaming platform with TMDB integration, advanced filtering, recommendation logic, and video playback.

DigiLocker Clone | React Native, Expo, Firebase 2026

- Mobile UI/UX project demonstrating QR code generation, complex animations, Firebase integration, and pixel-focused implementation.
